🛡️ KINGSHOT – HERO LINEUP GUIDE

(Solo | Rally | Garrison)

═══════════════════════

📌 FIRST — WHY LINEUPS MATTER

• Different game modes use heroes differently.

• Solo battles ignore Widgets.

• Rally & Garrison fights apply Widgets (big stat boosts).

• Always build lineups based on the *role*, not just raw power.

💥 SOLO ATTACK (PvP | Open World)

🧠 Widgets DON'T WORK here.

• Solo = **raw stats & expedition skills** matter most.

• Use heroes with the best *overall expedition stats*.

Recommended Solo lineup (Example Gen 3):

• **Amadeus** – strong skillset, high base stats

• **Petra** – great cavalry stats/skills

• **Jaeger** – best archer choice for raw damage

(Widgets are ignored, so heroes with higher stats > widget bonus here.)

⚔️ RALLY ATTACK

🧠 Widgets ARE APPLIED here — HUGE boost!

• Rally leaders should use heroes with strong **attack/rally widgets**.

• Rally heroes give multiplicative stat boosts based on widgets + skills.

Recommended Rally lineups by generation:

Gen 1:

• Amadeus + Jabel + Saul

Gen 2:

• Amadeus, Hilde, Marlin

Gen 3:

• Amadeus, Petra, Marlin

Gen 4:

• Amadeus, Petra, Rosa

Widgets matter most in rallies — choose heroes whose widgets boost rally stats.

🛡️ GARRISON / DEFENSE

🧠 Defensive widgets give big bonus.

• Best lineup focuses on defenders with strong defensive widgets and skills.

Recommended Garrison lineups:

Gen 2:

• Zoe, Hilde, Saul

Gen 3:

• Eric, Hilde, Jaeger

Gen 4:

• Alcar, Margot, Jaeger

Defense is about **survivability and defense buffs** — not pure damage.

🧠 TIPS FOR BUILDING YOUR LINEUP

• Save gems & mythic shards for heroes with widgets — they scale better.

• Don’t upgrade less useful heroes too soon — prioritize meta heroes.

• Solo fighters should focus on pure stats; rally/garrison should focus on widgets + synergy.
